LV electrical Utilities

Factory Inspection **
To document the consistent quality of
the product factory inspection are
performed periodically.

Remarks:

* The SUB-Manufacturing plants are under a periodic factory surveillance programme which is documented in inspection report.

** The report of the factory inspection includes the requirements of GSE applicative rules

In detail: visit has been performed to each factory and inspection of manufacturing process and components' check have been performed in order to guarantee a constant quality level as used for type test for compliance to CEI 0-21, for LV connection.

Components' check has been based on the list of critical components indicated in the test report issued for type test for compliance to CEI EN 62109-1 (test report issued by an accredited testing Laboratory recognized under ILAC agreement).
